

## Adopt – A – Student

School is tricky right now. Parents are working full time jobs and trying to be their child's teacher too! It feels impossible at times.

If you have a few extra minutes a week, we need your help. We want to pair you up with a student who needs a little extra guidance and encouragement.

Things you may consider doing include prayer, mail a card, give homework reminders, a quick call to see how a test went, note to encourage the parent, care package etc.

Everything you do can be done from your own home.
